**AMENDMENTS TO THE CLAIMS**

Please amend the claims of the present application as set forth below.  
In accordance with the PTO's revised amendment format, a detailed listing of all  
claims has been provided. A status identifier is provided for each claim in a  
5 parenthetical expression following each claim number. Changes to the claims  
are shown by strikethrough (for deleted matter) or underlining (for added  
matter).

**Claim History Summary:**

10 Claims 1-32 were originally filed.  
Claims 1-32 were rejected (OA 1/4/05):

**Claim Summary of Present Response:**

15 Claims 1 and 21 are currently amended.  
Claims 25-32 are cancelled.  
Claim 33 is new.  
Claims 1-24 and 33 are pending.

Response to OA of January 4, 2005

Ser. No. 09/990,837

Detailed Listing of All Claims 1-33:

- 1 (currently amended). A method ~~for loading a file on a server~~ comprising:  
communicating a file from a client to ~~the a~~ server, the file containing  
information;
- 5       generating an applet based on the information;  
communicating the applet from the server to the client;  
executing the applet on the client to thereby cause searching for an  
additional file; and  
communicating the additional file to the server.
- 10       2 (original). The method of claim 1 wherein the file comprises an INF file.
- 3 (original). The method of claim 2 wherein the INF file comprises a printer  
INF file.
- 15       4 (original). The method of claim 1 wherein the server comprises a printer  
server.
- 5 (original). The method of claim 1 wherein the applet comprises a security  
20       signature.
- 6 (original). The method of claim 1 wherein the information comprises file  
names.
- 25       7 (original). The method of claim 1 wherein the information comprises a file  
name associated with the additional file.
- 8 (original). The method of claim 1 wherein the executing includes searching a  
CD in a CD-ROM drive.

Ser. No. 09/990,837

9 (original). The method of claim 1 wherein the executing includes searching a memory associated with a camera.

10 10 (original). The method of claim 1 wherein the executing includes searching  
5 for an image file.

11 (original). The method of claim 1 wherein the executing includes invoking a request for a user's input.

10 12 (original). A computer-readable medium containing a computer program that is storable in memory and executable by a processor to configure a server to generate the applet of the method of claim 1.

15 13 (original). A method for configuring a server comprising:  
communicating a file from a client to the server, the file containing information;  
generating an applet based on the information;  
communicating the applet from the server to the client;  
executing the applet on the client to thereby cause searching for an  
20 additional file;  
communicating the additional file to the server; and  
configuring the server using at least the additional file.

25 14 (original). The method of claim 13 wherein the file comprises an INF file.

15 (original). The method of claim 14 wherein the INF file comprises a printer INF file.

30 16 (original). The method of claim 13 wherein the server comprises a printer server.

Response to OA of January 4, 2005

Ser. No. 09/990,837

17 (original). The method of claim 13 wherein the applet comprises a security signature.

18 (original). The method of claim 13 wherein the information comprises file  
5 names.

19 (original). The method of claim 13 wherein the information comprises a file name associated with the additional file.

10 20 (original). The method of claim 13 wherein the executing includes searching a CD in a CD-ROM drive.

21 (currently amended). A method for configuring a Web server comprising:  
communicating a file from a client to the server, the file containing  
15 information;  
generating an applet based on the information;  
communicating the applet from the server to the client;  
executing the applet on the client to thereby cause searching by the  
client for an additional file;  
20 communicating the additional file to the server; and  
configuring the Web server using at least the additional file.

22 (original). The method of claim 21 wherein the additional file comprises an image file.  
25

23 (original). The method of claim 21 wherein the configuring comprises associating the additional file with a Web page.

24 (original). The method of claim 21 wherein the additional file comprises an  
30 image file associated with a Web page hosted by the Web server.
